

# FLAT EARTH VS GLOBAL EARTH - CHARTS AND COMMENTS

Combining the Holy Bible and the  
Dead Sea Scroll, "The Book of Enoch"

# Genesis 1

This presentation provides information about the Creation Week as written by Moses, an Old Testament Patriarch.

It begins with drawings showing various stages of the first four days.

Provides a final drawing showing the cumulative results according to my interpretation of them. Since information is not exact, my results are not exact. These charts are for study purposes only.

# The Book of Enoch

While Genesis 1 gives us the information on the actual outward appearance of the earth and all that is created externally, The Book of Enoch provides us with the information of the internal area of the earth and the purpose for each area.

Enoch was shown all this information when God had some of his archangels take him on a tour of what is under the earth and the wonders Enoch discovered there. This gives us a good perspective about the internal workings of God that He put in place at the time of creation.

The Book of Enoch is not divine scripture, but it is considered as accurate history and Enoch was a righteous man of God that God translated into heaven without dying. The book agrees with the scriptures and sometimes fills in extra information that is missing from the scriptures. Enoch does not give the actual creation story, but it is the only book that reveals so much about what is going on below the surface of our planet and science cannot contradict.

# The Book of Enoch, Page 2

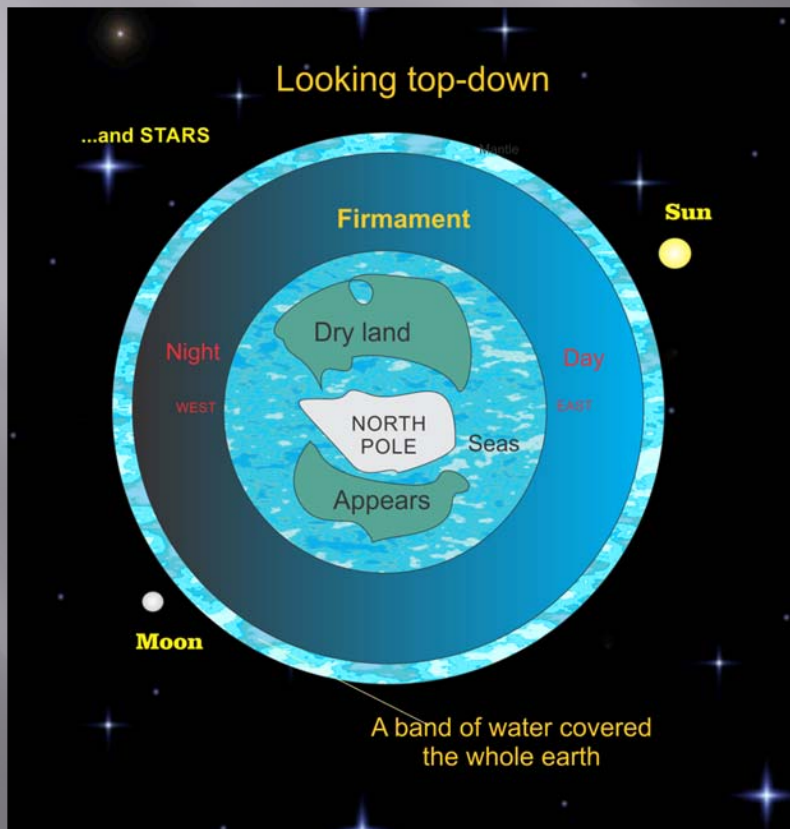

Later in the book Enoch discusses math, astronomy, astrology and many other subjects that the angels taught him while he was there the first time, a period of three years, before returning to earth. He presented his book to his sons and their descendants at God's command. This means Methuselah, son of Enoch, and Noah, grandson of Enoch, also had copies. That is how it survived the flood and why we have it today. Translators have probably changed it a bit over the years, but it is sound history as far as it is possible for us to know and coincides with the Bible. Science does not yet really know the internal workings of the earth so they cannot comment on this part officially. This presentation is a study only and not for scientific use. I am not an artist, nor a scientist, just a student of God's Word. I do not know how to make 3D renderings yet, so I apologize for everything looking flat!

In my opinion the Flat Earth version is a globe on the outside with the earth flat across in the middle. Regular Flat Earth believers seem to claim that the earth is a disk. Science does not support the disk version for many reasons, but this was believed by many for a long time. I have not heard anyone mention a round Flat Earth, but science would not like this one either.

# Global Earth Chart 1

GENESIS 1:1-10

## LOOKING DOWN UPON THE WORLD FROM ABOVE

Gen. 1:1 God created heaven and earth.

Gen. 1:2 Creation of divine light, Day and Night began.

Gen. 1:6-8 Created the firmament (the air which we need), by dividing the water, some above and some below. God called the air "Heaven."

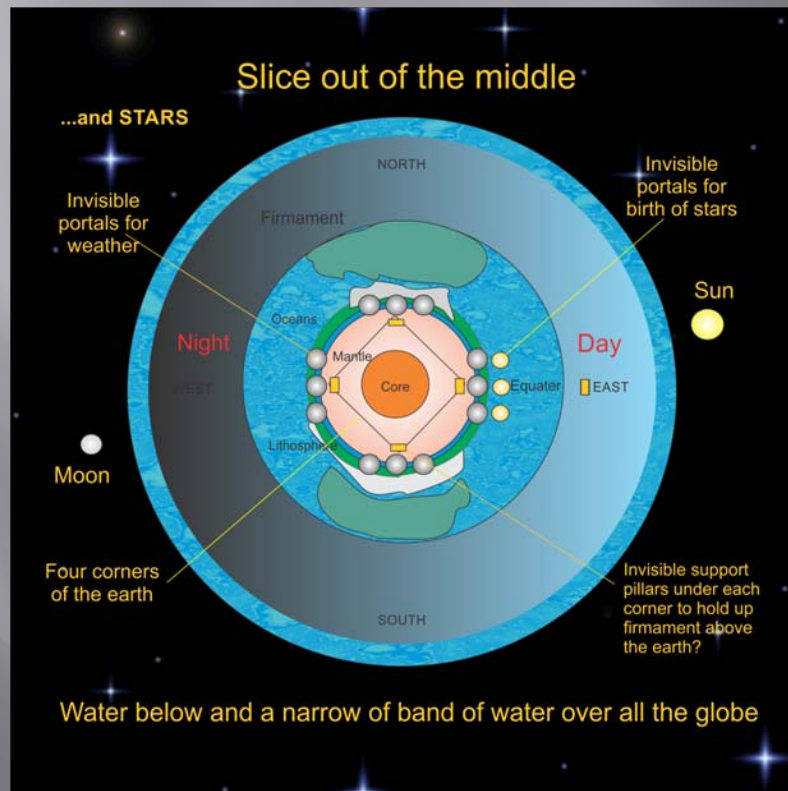

Gen. 1:9-10 God caused dry land to appear above the water and the waters gathered together in one place called "Seas."

Gen. 1:14-19 God created lights in heaven to provide Day and Night (divine light not needed now) to be for signs, for seasons, for days and for years. The sun gave light for the day and the moon and stars gave light for the night. The stars provided direction, always being in a set position at night.

## GENESIS 1 AND THE BOOK OF ENOCH

## FLAT SLICE OUT OF THE MIDDLE OF GLOBAL EARTH

The Book of Enoch adds some interesting information beyond what is given in the Bible.

The Bible discusses “the corners of the earth” and “the pillars of the earth,” providing no further information.

The Bible also talks about Sheol and Paradise for believers up to Christ’s resurrection. Again, no further details.

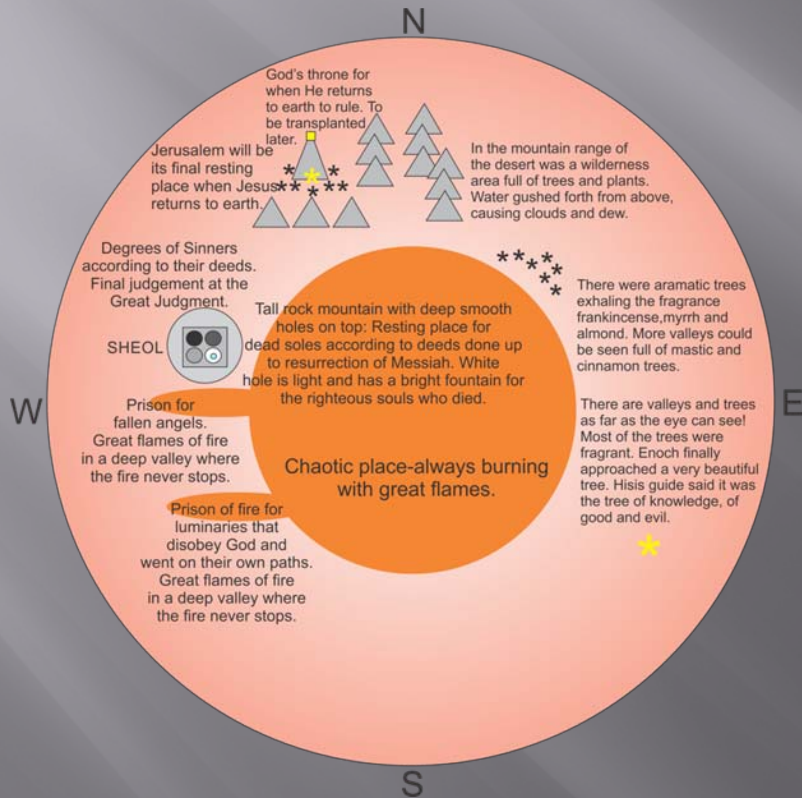

Enoch was translated to heaven and shown the internal workings of the earth and what is under the earth in great detail.

This chart shows the “corners of the earth” as North, South, East and West. This is why Flat Earthers prefer a Flat Earth. If you keep going East on a globe you will go around in continuous circles! At the halfway stage around the world, you have to go straight East into space; same applies to the other four directions. Our sins are removed “as far as the east is from the west” according to the Bible. Portals for weather, birth of stars and pillars will be described on Flat Earth Chart 1.

# Global and Flat Earth Chart 3

## GENESIS AND THE BOOK OF ENOCH

## MANTEL AND CORE OF THE EARTH

This information comes entirely from "The Book of Enoch" but parts are confirmed in the Bible.

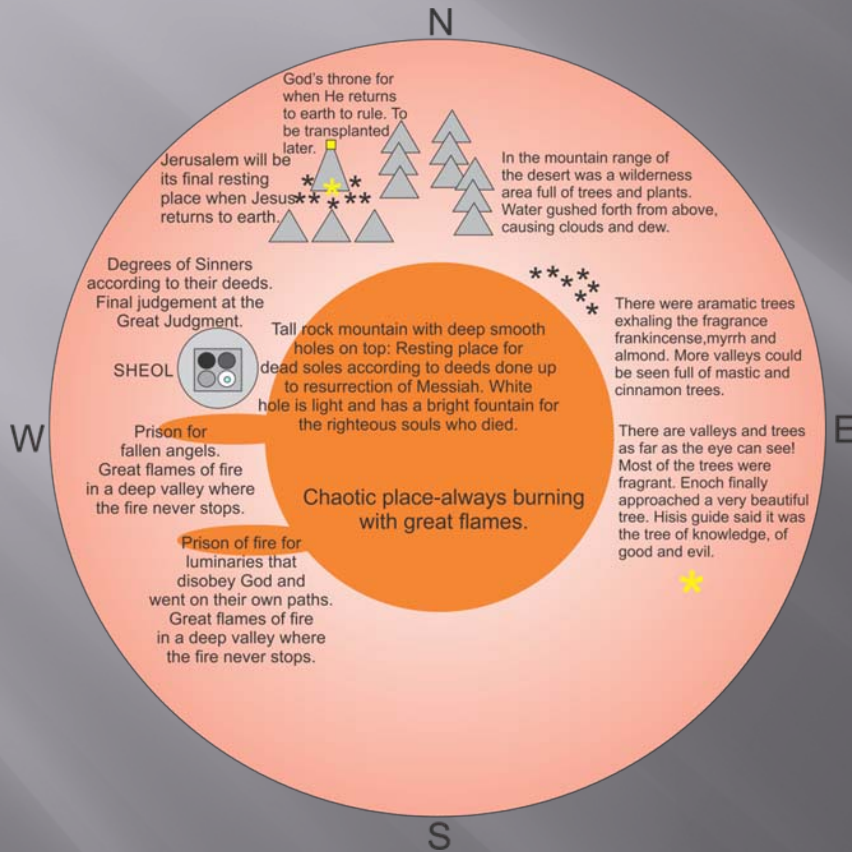

Enoch took a journey into the center of the earth and he attempts to describe what he sees. His guide answers his questions and Enoch writes it all down to pass onto his sons and grandsons.

The first thing he sees is the core of earth which is like huge mountain ranges burning with hot raging fire that never stops.

Two huge deep crevasses in the mountains spreads out of the core to the West. These crevasses are full of raging fires. The top left one is the prison for fallen angels and the second one is the prison for luminaries that disobey God and go out on their own paths. They roll around in this fire for ten thousand years. They never grew and functioned as they were told to do. They disobeyed God.

Continued on next slide.

# Chart 3 continued

## Mountains and Tree of Life

A little further, NW of Sheol, were great deserts and barren mountains. At last he came to a beautiful grouping of seven mountains, three in the east and three in the South and one very high mountain in the middle between them. Each mountain was beautiful and completely different from each other. The tree in the center was the Tree of Life, waiting to be transplanted in Israel when Jesus returns for His people!

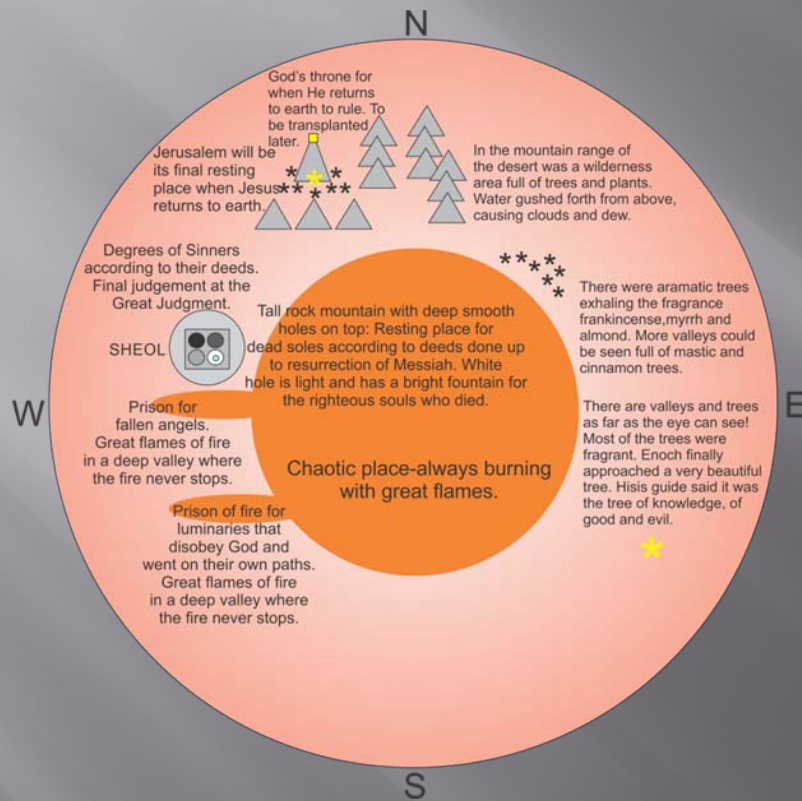

This tree was so beautiful and its fragrance was beyond all the fragrances in the world. Its blooms and leaves will never wither. Its fruit is beautiful and resembles the dates of the Palm. No one is permitted to touch it; it is for the righteous and holy people of God. It is the food of the elect.

In the North and middle of the earth is a blessed place with lots of trees abiding and blooming. There was a holy mountain there and underneath the mountain to the East, there was a stream that flowed to the South. Just West of this place was a deep rock valley that was completely barren. The unbelievers could look across the ravine and see the righteous in their beautiful place where they waited for the Messiah.

Travelling east he saw a valley filled with water and surrounded by many glorious trees. Most of them trees of great fragrance: cinnamon, nard, pepper, stacte, mastic, all with wonderful fragrances.

# Chart 3 continued

## JOURNEY TO THE EAST

He travelled through many more forests and mountain ranges as he proceed east. In between were desert and barren areas. There were aromatic trees in every direction that he looked; their fragrance blending together in harmony.

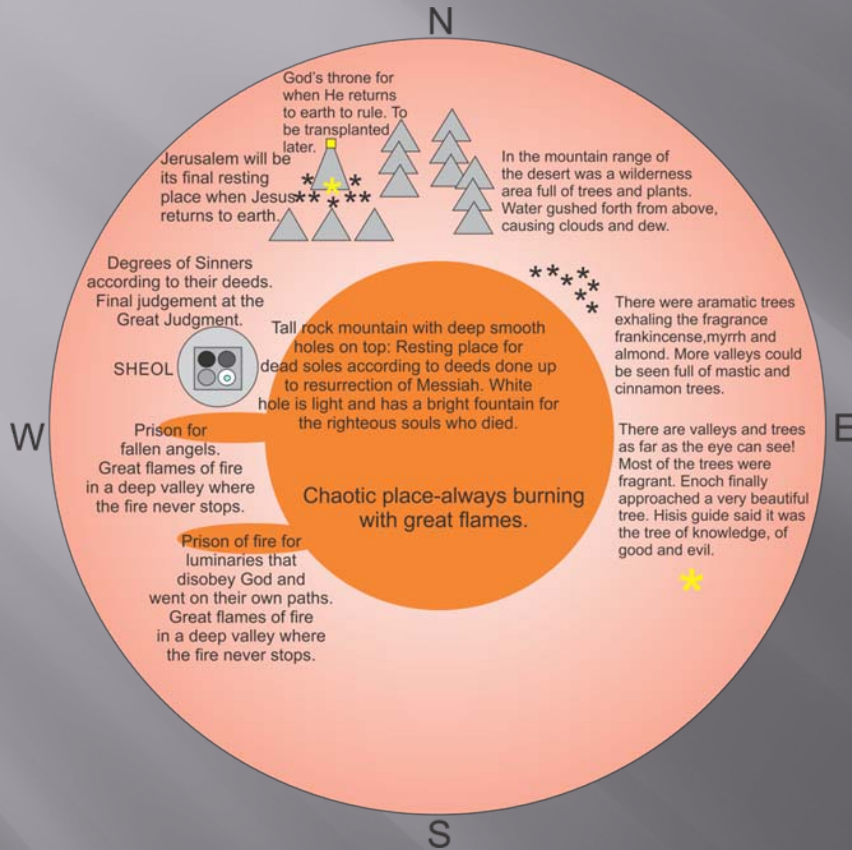

He finally came to the Garden of Righteousness. (Perhaps this was the Garden of Eden which God hid away after the Flood?)

Great and beautiful trees stood in the center of the garden, including the tree of knowledge that was forbidden to Adam and Eve.

Travelling still further east I saw all kinds of beasts and birds of many kinds and colors, all singing gloriously in their own particular voices.

In the far east he saw the three portals from which all the stars are born! He wrote down the names of the ones he watched being born and the angel told him their names and where they were going, plus all the laws concerning them.

# Chart 3 continued

## FURTHER JOURNEY TO THE NORTH, WEST, SOUTH AND EAST

In the North, South, West and East he saw three portals for each direction designed to control the weather of the earth.

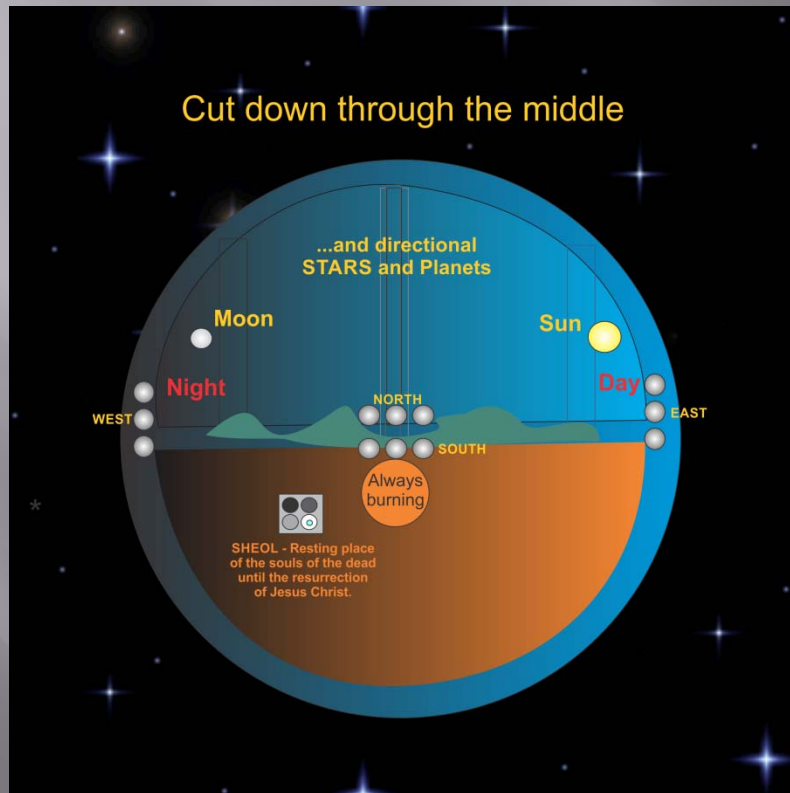

Three portals: One portal blows for good, but the other two portals blow with violence and affliction upon the earth.

No further details are given in the Book of Enoch that has survived until now. I wonder how many more great and wonderful things he had written in the original book that he gave to his sons and grandsons.

## GENESIS 1:1-10 AND THE BOOK OF ENOCH

## FLAT EARTH SLICED DOWN THE MIDDLE

There is not much more I can tell you about the Flat Earth as much of it is the same as for a globe.

However, the pillars are much easier to show than on the globe, although they are on there as well.

Enoch stated that the pillars were placed at the four corners of the earth, rising up into the sky to hold up the firmament in its place as designed by God. They are invisible, of course, just in another dimension from ours.

It seems apparent that earth before the flood was once one big continent with its lakes and rivers and a great sea that surrounded the whole thing. The waters of the flood did not completely dry off. Scientists already know that.

There are great books you can read that explains all about the Flood, the Ice Age and the current distribution of the lands during the first forty days of the Flood.

My favorite book is "The Genesis Flood" by Whitcomb/Norris. This works for both Global and Flat Earth concepts. However, most scientists and Christian leaders of today believe in the Global Earth. The Bible does not contradict that fact, and the scriptures used by the Flat Earth believers can also be interpreted to fit the Flat Earth description. One half the earth is the firmament and our earth while the other half of the globe is what is located under our continents. Both versions are found on the outside! All the great planets and stars are round on the outside. None of us really know what cities may be on the inside!

In all cases study for yourself and pray for God's guidance. They cannot both be correct. Jesus tells us that EVERY EYE shall behold Him when He returns. Some people are not out of His sight on the bottom side of the globe when He comes. (MY opinion.)
